

My Experience of LOCKDOWN

Feelings and concerns:

I feel worried about anything bad happening to any of the family such as one of the members getting Covid or any of my friends getting it.

I also feel quite angry since we can't do anything to help against Covid 19 apart from staying at home and always standing 2 metres apart. I wish there was more we could do.

Well, at least I feel safe at my foster home, mostly because of how they look after me, give me food, and because of the dogs.

I feel a bit perplexed about the containment plan but I have all my trust in the NHS, and how does opening schools help? Just wondering.

Worries:

I worry about a lot of things, mostly about covid 19. Here are some of them:

- Is we have to move to a different home
- Is anyone in my foster home gets covid 19.
- Is anyone is hurt and needs to go to the hospital.
- and if the Priminister gets covid 19 again.

Changes:

- We always have to stand 2 meters away from other people
- only the adults do shopping once a week.
- we only use our own vehicles and no public transport.
- and the kids have to only go in the garden to go outside, and if not the splash pool.
- we only travel when needed
- I have also noticed less people outside as the main advice is stay home
- I have decided to go to school 3 days a week.
